

# 4.2

**LANCET TECHNOLOGY**  
Innovative Data Solutions

## Benefits

### Powerful and Flexible

4.2 is the most powerful and flexible data solution available. You have complete control over all aspects of the data collection and analysis.

### Secure

4.2 is the most secure data solution available so you and your IT department can rest easy.

### Technology Leadership

With support for WiFi, Tablet PCs, SQL Server, Oracle, Novell Netware, Windows 2000/2003 and low bandwidth connections, utilizing the latest technology is easier than ever.

### Power and Flexibility

As an organization, your data is one of your most important and critical assets. When it comes to collecting and analyzing this data, you need a powerful and flexible solution that will allow you to collect it and analyze it in ways that make the most sense for you and the end user. 4.2 provides organizations with the industry's choice for powerful and flexible data solutions. With 4.2, almost *everything* is customizable. With complex edit checking and page design capabilities, no other competitor comes close to offering you the power and flexibility you deserve.

### Access Anywhere. Zero Footprint

Lancet Technology understands the never-ending challenges facing IT departments supporting desktop applications. 4.2 solves many of these challenges by providing organizations with a truly zero-footprint solution. Authorized users can use the application from any computer with a web browser with no software to install.

### Secure

Data collected should never be anything less than secure. Lancet Technology was the first organization in the industry to recognize this by providing the ability to store data in a Microsoft SQL Server or Oracle databases. 4.2 builds upon this history by providing an exhaustive list of security improvements including extensive password control, complete audit logging and more.

### Multi-Site Support

For organizations that need to collect data from a number of facilities, 4.2 contains powerful multi-site support. Sites are able to enter data using their existing hardware and without having to deal with the hassles of exporting their data. You, on the other hand, always have the most up-to-date data allowing you to produce the timely reports that you need.

### Easy to Use

All of 4.2's tools are intuitive and easy to use making the most complex tasks simple.
